TRENDING

# Kitchen Appliances

What's happening today? Bored of normal cooking way?

New trend has come! Its cool, fun and entertaining!

NOW the trend of cooker hoods & hobs is changing, you may observe a lot of nice and fancy design cooker hood with high standard quality and technology. It had transformed the cooker hood and hob become a fashion of New Living Style & Art of Cooking.

The trend of upper cabinets disappeared and walls can be opened up/change to glass, what we called "Naked Kitchen" with simplified kitchen design, all the appliances and storages have shifted underneath cabinets. Installed with designed and high technology kitchen appliances.

Many people is following and catching up with this trend. However, the key is always, include trends that you love and that reflect your taste throughout the rest of the home.
